Mapping potential pathways

“Success in life depends primarily upon three things:  
discovery of who you are, what you can do best, and where you are going.”

- Henry Clausen

Start with who you are...

Consider, what do you value most?

How would your friends and family describe you?

What is your personality type? (try this free **personality test** to find out more about yourself)

When do you feel most alive? (think of what you are doing or who you are with)

Type in the words that describe you...

Now, where you are going & how you might contribute...

What are you knowledgeable about?

What causes are you passionate about?

What is it you want to make a difference on?

What really matters to you?

Consider for a moment, what are you most passionate about?

What is one thing you would change about the world if you could?

Type in what you want to change below and how you might start that journey...
